

Damien Delemarle
16 Orwell Street, Potts Point
Sydney, 2011

Nationality: French
Date of birth: April 3, 1985.

Mobile number: 04.57.64.79.72
Email Address: ddelemarle@gmail.com
Working Holiday Visa until 10th January, 2013

International Driving license
First aid Capacity Certificate
RSA

PROFILE

Throughout my working experience, I developed an open mind to take on responsibility. This would serve me every day and give a real vision of the work world. I became organized and thorough in my work and it allowed me to get my engineering degree.

I have experience in English: I did my training course at Dublin during three months where I increased my English level. During four summers I served as a **waiter** at a campsite **** in Brittany. I have also worked during during 1 year in the bar as a **bartender** in Paris. I decided to take an Australian working holiday visa for a new experience, while combining my previous experiences: work in an English environment.

I enjoy working as a waiter because I work directly with customer. I am enthusiastic, dynamic, multi-task and organized; all in all I feel I have the profile to work as a **waiter**.

I can do any work I set my mind to. The most important thing to me is work because inactivity does not appeal to me. The more I work, the more confidence I can build.

At the end of my studies, I worked for an IT company called Coraud that gave me a real experience in a project of great magnitude. I was recognized by my boss for doing excellent work on this project.

In the future, I would like to be a project manager in IT because I have the ability to manage a team.

PROFESSIONAL EXPERIENCE

Internship courses:

- **May –November 2011:** Designed and developed a module in Java language for supervision of complex systems "Weakness GUARD" in R&D department at Coraud, 120 employees in Paris.
 - o It is my most important working experience because I worked with four people in the R&D department .This project cost several million euros and it started in 2008. My job was to improve the design with SWING and AWT library. I developed a Help User module with Java Help frameworks to improve the quality of the software. I created a test to improve the hardiness.
- **July – September 2010:** Webmaster and maintenance network at BABYADGENCY, 10 employees, Paris.
 - o I developed a natural reference a dynamic website; I used HTML, PHP and CSS Language. I configured the network with Windows and Mac OS system. I helped all the employees in IT with basic needs.
- **July – September 2009:** Webdesigner in OPEN DOOR, 16 employees Dublin.
 - o I created and referenced the web site of the companies for the project IpositiveNow. I presented the project during several meetings.

Seasonal work:

- **2009-2010:** To finance my study I was as **bartenders** during 11 months every week end in the Night Beach bar, Paris. I waited table, took orders and cleaned the bar. This experience gave me a lot of confident because I am self-motivated and take the decision alone when the boss is not available.
- **2005-2008:** Four consecutive summers I worked as a **waiter** and **bartender** for a four star campsite, La grande métairie at Carnac, 4500 guests stayed in the campsite. As the majority of clients were Irish and British, I spoke English every day. I **cooked** food in the snack bar (pizza, hot dog, and fish and chips), serve **alcohol** and **ice cream** and **washed dishes**. This experience was a great benefit to me because I saw the handwork and worked with a team.
- **2004: Shelf stocker** in Monoprix supermarket, Boulogne.
- **2001-2008:** Once a year I worked for the Asthma Day annual conference, welcoming visitors and showing them around.
- **2009-2011:** I **tutored** 12 young students in Mathematics lesson during 2 years.
- **1998-2003:** **Magic** show to host birthday parties.

EDUCATION AND QUALIFICATIONS

2008-2001: Ecole Supérieure informatique (EPSI), graduate engineer diploma.

2007-2008 : Ecole Française d'Electronique et d'Informatique (EFREI), Paris. First year of computer engineering.

2006: Preparatory class (math, physics, electronics and mechanics) to prepare for the entrance examination to a high level computer science school.

2004-2006: B.T.S (National competitive exam) in Software and Networking (Computer Science).

2004: Technical Baccalaureate in Electronics.

LANGUAGE / COMPUTER SKILLS

- IT

Hardware: Pc (internal editing and maintenance).

Operating systems: Windows XP& Seven, UNIX, Max OS X.

Office: Microsoft Word, Power Point, Excel, Front Page.

Languages: C, C++, Java, processor 68K.

Web Conception: HTML, PHP, CSS, JavaScript.

- Language

French: mother tongue.

English: fluent, TOEIC: Test of English international communication (775/990).

Spanish: basic knowledge.

Experience abroad: 3 months at Dublin for a training course (2009) and 2 months in a family in Bath, England (2000).

- Demonstrative

Dynamic, adaptive, rigorous, able to work as a team as well as alone, multitasking skills and punctual.

INTEREST

Hobbies: close up magic show, cinema, and bowling.

Sport: tennis, athletics (good level), swimming and ski (bronze).

Traveling: USA (3), England (4), Egypt, Morocco (2), Ireland (3), Canaria Islands, Thailand, Portugal, Italia, Spain, Germany, Belgium, and Australia.

REFEREES

Tayt Baldwin, English tutor since 2001, he is American but he lives in France, taytbaldwin@yahoo.com.
